Performance-driven Software Engineer with experience in designing, developing, and deploying robust software solutions. Skilled in problem-solving and time management, with a strong focus on delivering high-quality results.

WORK EXPERIENCES

-
- | | |
|--|---|
| TikTok, Backend Software Engineer | Apr 2024 - Present |
| <ul style="list-style-type: none">Reduced metric monitoring time from 3 PD to 0 PD by unifying data platform systemsCreated >10 real-time indicators to enhance management of LIVE creators, improving UV of new creators by more than 40%Refined workflows for data metrics by streamlining search functionality | |
| ByteDance, Backend Software Engineering Intern | Aug 2023 – Dec 2023 |
| <ul style="list-style-type: none">Overhauled approval process by integrating in-house solution, increasing efficiency >30%Contributed to channel platform with monthly transactions exceeding USD \$7.5 billionRaised performance of channels rating API by over 90% through effective optimization strategies | |
| Google, Software Engineering Intern | May 2023 - Aug 2023 |
| <ul style="list-style-type: none">Refined onboarding verification flow on Google Pay's merchant application (Android)Optimized QR code loading time by 93.5% (from 1.38s to 0.09s) through elimination of RPC callsLowered proximity verification range by 99.5% from 2km to 10m by leveraging Bluetooth Low Energy | |
| GovTech, Software Engineering Intern | May 2022 - Jul 2022, Dec 2022 - Jan 2023 |
| <ul style="list-style-type: none">Reduced loading time of web page by 10% by removing unnecessary API callsStrengthened security by implementing Two-Factor AuthenticationImproved server query response time under load by 200x through API restructuring | |
| Reluvate Technologies, Software Engineering Intern | Nov 2021 - Jan 2022 |
| <ul style="list-style-type: none">Developed end-to-end web applications to host AI and automation solutionsDesigned and implemented backend APIs for a multinational real estate companyConstructed Optical Character Recognition (OCR) to process pdf with more than 95% accuracy | |

EDUCATION

-
- | | |
|---|---|
| Master of Science in Computer Science | Aug 2024 – Present |
| Georgia Institute of Technology | |
| Bachelor of Computing in Computer Science (Honors) | Aug 2020 – Jan 2024 |
| National University of Singapore | GPA: 4.78 / 5.00 (Highest Distinction) |

PROJECTS

-
- | |
|---|
| Instrument Tracking – GIC Code to Impact 2022 2 nd runner up |
| <ul style="list-style-type: none">Spearheaded team of 5 to delivered an instrument tracking web application catered to businessAdded extra features such as cross checking of data and logging systemConstructed using <i>Node</i>, <i>NextJS</i> and <i>Postgres</i> |
| Around the World in \$80 - Expense splitting  Project |
| <ul style="list-style-type: none">Targets pain point of group travelers in splitting billsUse various software design pattern such as "command pattern" and "model, view, controller"Programmed in <i>Java</i> with <i>JavaFx</i> Library with 90% code coverage |
| Inclusive Search – Google HelloAI (internal) hackathon Finalist |
| <ul style="list-style-type: none">Built LLM prototype for more inclusive search results, incorporating diverse cultural perspectivesPitched the AI solution, showcasing strong communication and presentation skillsRanked among the top 10 teams, demonstrating teamwork and excellence in problem-solving |

SKILLS & CERTIFICATIONS

Programming Languages: Python, C++, Go, JavaScript, TypeScript, Java, SQL
Technologies: ReactJs, NextJs, Flutter, React Native, Postgres, SQLite, MongoDB
Certifications: AWS Solution Architecture Associate
